

# Mighty Fortress

When darkness seems darker than  
The brightest of lights  
The ground that you walk upon  
won't stop quaking  
There's still a light that shines  
A rock that won't move  
A hope that is calling you and me, yeah

Chorus:

A mighty fortress is our God  
We will not be shaken  
The righteous will run to you  
We will not be moved

We look past our circumstance  
We hold to the truth  
Your throne is high above any mountain  
Your kingdom is coming now  
As your will is done  
And your power is changing everything, yeah

Yesterday and today  
and forever your strength will remain  
Kings of the earth pass away, but you're eternal

Mighty Fortress, You are with us!  
Mighty Fortress, You are with us!
