

The Lord is Present Here

Every heart wiped clean
Every life made new
Every voice there will sing
God there is none like You

The Lord is present here
The Lord is present here
The Lord is present here
Come worship

We offer up our lives
A living sacrifice
Pouring out our gifts
Of thanks and praise
This is your holy hill
You call us higher still
Joining with all heaven
To acclaim

Holy Holy Holy Lord
God of power and might
Heaven and earth are full
Of your glory

Brought near by Jesus' blood
Brought near by Jesus' blood
Brought near by Jesus' blood
We worship
With angels round your throne
With angels round your throne
With angels round your throne
We worship

Let all the nations come
Let all the nations come
Let all the nations come
And worship
Let all creation bow
Let all creation bow
Let all creation bow
In worship
